The days of palimony and fortune telling are nearly at an end in Michigan. The senate has agreed to the Maritz bill which prohibits the art or practice in this state along with those of similar seeking after the money of people anxious to have their fate foretold and to be informed whether they are going to marry rich or have a fortune left to them. The bill has passed the house and is ready for final action in the senate with no amendments in sight which are liable to give opportunity to kill the measure. The senate has also passed the Amberson measure which allows boards of supervisors to increase the amount they may appropriate for repairing county buildings from \$5,000 to \$10,000.

In committee of the whole the senate has agreed to the Burke bill which has passed the house prohibiting erecting a building in the sale of liquors at retail. One amendment was made to the bill but not of a character that will change its purpose and as there was no opposition in sight, it is probable that the bill will be before the governor for consideration within a few days.

The house has voted its disapproval of the Burke bill and has passed the Amberson measure.

Superior Points of the Akron Truss

1. The pads WILL NOT SLIP.
2. Severe and almost hopeless cases of rupture are held where all others fail.
3. Pads are made from the finest rubber, blown to a fine porosity, soft, comfortable and velvety to the flesh, and firm enough to hold all cases perfectly.
4. The Pads extend beyond the rupture edges and thus afford a holding surface, this with the remarkable holding qualities of their fine rubber surfaces, are such that when the ruptured parts are brought together they are held together and every possible chance given to unite.
5. They hold the rupture by covering, not by a senseless, cruel corking only, that prevents closing the rupture.
6. Few ruptures can be cured by a truss, but where it is possible for a truss to cure a rupture by holding it properly, this truss will accomplish it.

We published in item last week regarding the Graham family in Lewiston. We are glad to say that we had been misinformed and that their loss of two sons of diphtheria was a mistake. One son died, Ted, a lad of about 13 years. The family is out of quarantine and everything in that home is alright.

At the Livingstone celebration at Methodist Episcopal church Sunday morning last, Mr. Chicago gave an address on the Indian question. Mildred Wilbur recited a prayer in German. Carlton Meisinger read a Latin poem in praise of the church.

Mr. Orlaf N. Michelson was host to a most enjoyable men's party given at his pleasant home last Thursday evening in honor of Mr. Fred W. Michelson of Detroit. The gentlemen spent the evening in playing cards and passing out most excellent advice to Fred who joined the army of Benedict at Bay City yesterday. Many can always help one but one cannot always help many. The band is in need of new uniforms. Their minstrel show, given under the auspices of the band, Friday evening, March 28th will be worth the price of admission. The music is all new and up-to-date and no pains have been spared by Messrs. Walton and Belanger in their endeavor to prepare an entertainment that will please. A good band in a town shows to the traveling public that a town is a live wire as a business proposition an besides it gives a pleasure to the men, women and children. Appearances always aid in business and social life, and to most people the appearance of a band garbed in a dainty uniform adds to the quality of the music. The band solicits your patronage. Do it now—get your tickets at Olson's drug store. Just press a little on the button and the band will do the rest. Don't forget the date, Friday evening March 28th, 1913.

CAN A SHIP BE MADE UNSINKABLE?

Is it possible to make a ship unsinkable? At least, can't a ship be made far less likely to founder than under present systems of construction and yet be fit for the service for which she is designed? The sinking of the Titanic brought these questions into sharp focus, and the public's interest in the subject has been greatly increased. Since that time, the shipbuilders have been working on the problem, and many of the latest designs are being built.

They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

CAN'T BREAK MONTE CARLO

Immense sums of money have been lost in the game of roulette. Hard to supply the losing tables.
Among the classic system players who gained great sums at Monte Carlo was Charles Wells, an Englishman, who came to Monte Carlo in 1891 and won £187,000. He lost it all in one day. He was the only man who ever won so much money at roulette. He lost it all in one day. He was the only man who ever won so much money at roulette. He lost it all in one day. CAN A SHIP BE MADE UNSINKABLE?

Is it possible to make a ship unsinkable? At least, as a ship, he would not lose itself in the water under any circumstances. The answer is, "No." But he can be made to float for a long time.

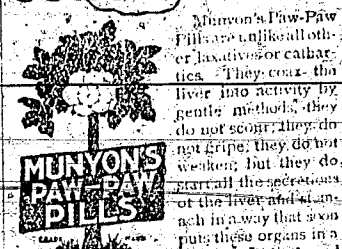

The ship is made of a material that is lighter than water. It is made of a material that is lighter than water.

CAN'T BREAK MONTE CARLO

Hand to Supply the Losing
Tables.

who gained great sums at Monte Car-
to was Charles Wells, adventurer and
inventor, who came to Monte Carlo
with the money of other people, to
win or lose it all. In testing his
great idea, he played also on the

simple, classic system of the
famous method of d'Alembert, the
great mathematician. Wells began
with a stake of ten units, decreasing
to nine if he won, but increasing to
eleven if he lost. He gave back a
kind of swing of the pendulum, so
that on one way to twenty units and
the other down to one. For a time he
contrived to prosper so sensationally
that the tables at which he played

played the hour of his

November, however, when he
Williamson in Monte Carlo, no success-
ful player can have the thrilling joy
of breaking the bank. As soon as it
is seen that one gambler or more may

ever, more money is modestly
brought by one of the footmen, and
play goes on for an instant
